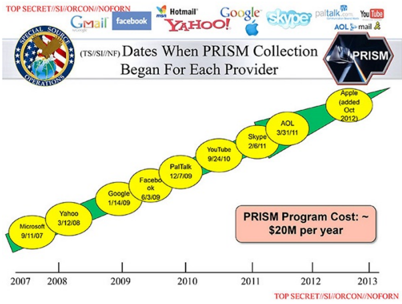
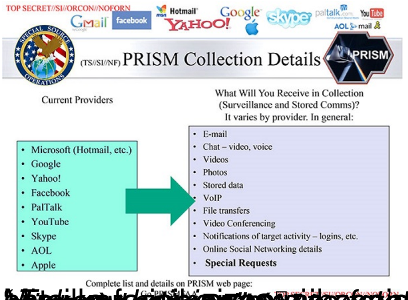
13 Jona 2013. Handeha ka tsy hiverina intsony izany ity mpanolontsaina *«ara-kolotsaina»* amerikana ity (sary ery ambony indrindra). Nihaona farany tamin'ir
eo tonian-dahatsoratry ny gazety Malagasy izy farany teo. Marihina fa hatramin'izay nahatongavany teto Madagasikara dia tsy nahazo fanasana avy amin'ny Masoivoho amerikana intsony ny madagate.com, indrindra moa fa ny tenako.



Efa tamin'ny taona 2007 io PRISM io no natomboka fa izao 2013 izao vao nampahafantaran'i Edward Snowden

Ka izao no mba afatra napetrany: *“Ny tsanga-kevitra tohanan’i Etazonia”, hoy izy, “ dia tsy miova. Tokony hajaina ny zo fototra ho an’ny rehetra. Ny vahaolana dia miainga amin’ny fahavonona hanaraka ny fandaminana ka ny mpilalao rehetra dia hanaraka fitsipi-dalao iray ihany”* . Ay ve e ? Fa ilay praograma PRISM novolavolain’ny fanjakana amerikana izany dia tena manaja tsara ny zon’ny tsirairay? Maninona moa no tsy mba noresahiny mihitsy io fomba fitsikilovana goavam-be iray io hafahan’ny Amerikana mitsikilo ny tsirairay ERAN-TANY ?

Nampiany koa ny hoe: *“Hampiasao ny Centre de Presse, eo koa ny teknolojia hanampy anareo”.* Ny dikany dia ianareo mpanao gazety sy izay olona mampiasa ny fitaovana ao Antsakaviro ao dia any amin’ny C.I.A. sy ny F.B.I daholo ny mombanareo. Ka iza no hotorianareo raha sahy hitory ianareo? Na mailaka, name Skype, na Facebook, sns. eny na antso an-telefaonina nataonareo aza dia efa any.



TOP SECRET//SI//ORCON//NOFORN
(TS//SI//NF) Introduction
U.S. as World's Telecommunications Backbone
PRISM
• Much of the world's communications flow through the U.S.
• A target's phone call, e-mail or chat will take the cheapest path, not the physically most direct path – you can't always predict the path.
• Your target's communications could easily be flowing into and through the U.S.
International Internet Regional Bandwidth Capacity in 2011
